

# INNOVATIVE DENTAL SLEEP & TMJ SOLUTIONS OF RENO

My name is Jason Doucette. I am a Nevada native who has practiced general, cosmetic, and implant dentistry in the greater Reno/Sparks area since 1999. Due to my extensive training and background in comprehensive dentistry, coupled with my concern for every individual's overall health and well-being, I have become acutely aware of the vital role that efficient sleep plays in the optimal health of every patient I treat. So over the last eight years, I have become very passionate about heavily screening and treating all of my patients/friends for any type of sleep breathing disorder. The goal for myself and my team is to collaborate with local physicians to help patients with sleep breathing disorders get the treatment they need in order to live healthier and happier lives...

Dr. Jason R. Doucette, DMD, DABDSM, DASBA

## Summary of Our Philosophy and Unique Patient Benefits:

- Complimentary Comprehensive Sleep Screenings
- We firmly promote and recommend PAP therapy, "The Gold Standard," for all patients with diagnosed OSA (typically moderate to severe)
- We recommend and treat all patients with mandibular advancement devices who are diagnosed with mild OSA or who are CPAP intolerant (per the 2015 AASM guidelines)
- Eccovision Acoustic Diagnostic Pharyngometry and Rhinometry used to evaluate airway abnormalities and the best mandibular position for optimal airway maintenance during sleep
- Ares/Watermark Home Sleep Test units available for non-Medicare patients (if applicable)
- **We accept and bill all medical insurance carriers for the treatment and follow-up for OSA**
- **We accept and are approved as a DME for all Medicare patients with OSA**

## OUR MISSION

To spread sleep health awareness to our community in a collaborative effort with all physicians in order to effectively treat patients that suffer from sleep disturbed breathing and related comorbidities.
